HOW TO BUY

Five ways to put ANI on contract.

01 SDVOSB set-aside
Competed among service-disabled veteran-owned small businesses under FAR 19.14.

02 SDVOSB sole source
Direct award where the contracting officer's conditions for a sole source are met.

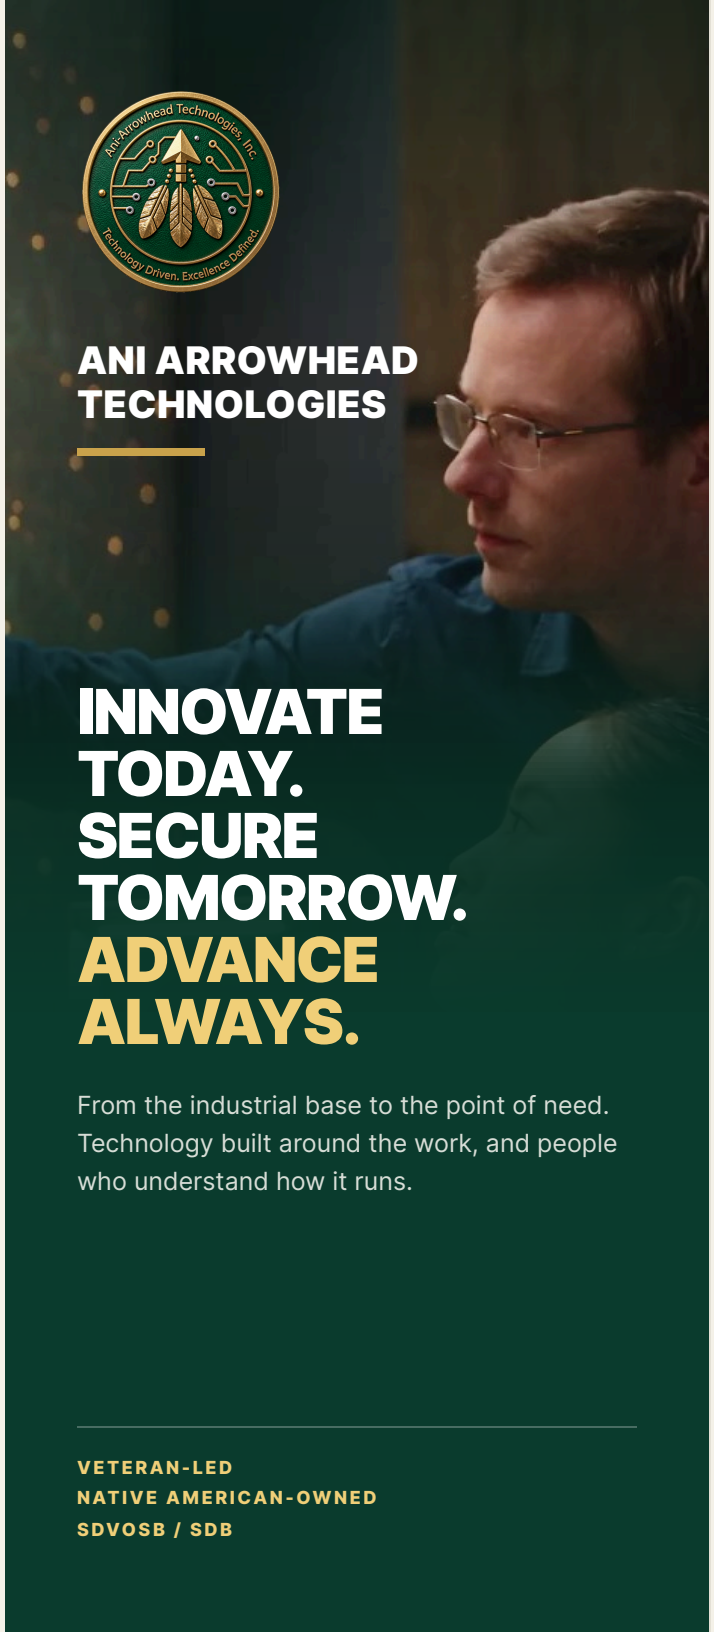

03 Small business set-aside
Competed among small businesses in any of the NAICS codes listed here.

04 Subcontract or teaming
ANI joins a prime team under an executed, solicitation-compliant arrangement.

05 Simplified acquisition
Purchase card and open market buys for smaller, faster requirements.

NAICS CODES

PROGRAM SUPPORT

01 / WHO WE ARE

Built on how the work gets done.

A Native American-Owned, Service-Disabled Veteran-Owned Small Business delivering technology and operations support to federal agencies. Modernize what an agency runs, protect what it holds, and keep the supply chain moving.

The whole chain

Every link, from requirements through returns. Most firms speak to one.

Veteran led

A retired Army Major and Certified Master Logistician sets the delivery standard.

Tied to the work

Technology applied to the processes an agency runs, not for its own sake.

Direct access

Short lines to leadership and a simple small business contracting path.

02 / WHAT WE DO

Five capabilities, one team.

Emerging technology

AI and machine learning, automation, data engineering, cloud, digital modernization.

Cybersecurity & risk

Zero Trust architecture, continuous monitoring, NIST RMF, FISMA and FedRAMP support.

Logistics & supply chain

Supply chain optimization, asset tracking, procurement, lifecycle management, visibility.

Financial management

Budget planning and execution, reporting, forecasting, audit support, risk monitoring.

Program & administrative support

Operational administration, project coordination, records, workflow improvement.

03 / THE FULL CHAIN

Industrial base to the point of need.

01	**Requirements**	What is needed and when
02	**Procurement**	Sourcing and buying
03	**Storage**	Depot, warehouse, forward stock
04	**Distribution**	National to regional to local
05	**Transport**	Rail, port, air, and ground
06	**Maintenance**	Keeping equipment in service
07	**Returns**	Recover, repair, and reset

Why it matters

Performance is won or lost in the supply chain. We have worked each link from the inside, so a delay in one place does not become a shortage at the delivery point.

LEADERSHIP

Major (Ret.) Lehman Smith
President & CEO

Retired U.S. Army veteran and Certified Master Logistician.
